

This House - Hannah & Falco (2020)

Paper snowflakes on my head
For the photograph
Cocktail glasses running dry
Refills are imminent

This room feels just like a cave
from older times
And all I ever do is stay
At the fireside

This house has windows made of stone
It's so easy to call home
This house has it figured out
And we're never looking out

Pictures of the golden years
Medals and trophies won
Book shelves full of souvenirs
The people we have become

Drew all the curtains to keep out
A harsher life
rooms we never were allowed
In time, in time

This house has windows made of stone
So easy to call home
This house has it figured out
And we're never looking out

This house has windows made of stone
